

Welcome to the Solibus!

We are happy to be on the road with you!

To make sure Solibus rolls on for a long time and that we can have many more good rides together, we have put together a few points that are important to us.

If you have any questions or feedback, just contact the companions at the steering wheel :-)!

Respectful and mindful with each other

It is our concern that all people feel comfortable on the bus and make it their own - as a self-organized and fear-free space. For our journey together, a respectful and mindful contact with each other is very important to us.

Cautious with the Solibus

Please treat our self-organized Solibus in such a way that it will continue to be on the move for a long time.

We from "Solibus" are activists who keep the project running and support it from a social/political point of view.

Just as you give your skills and resources to your projects and undertakings, such as this trip, we try to contribute our part to the success of the different projects and concerns with the Solibus.

For us, the Solibus project is also your project. Only with your participation and support we can keep the project running for a long time.

Solibus - a place to feel good for everyone

It is an expression of our respect that every group gets a fit bus to start with. We make sure that the Solibus is tidy, attractive and technically always well maintained.

Please support us in this, treat the bus with care and leave your seat clean. Please take everything you brought with you.

There are garbage bags hung up in the bus. If an "accident" happens, no problem. Just talk to us right away, please.

Good air for everyone

In and nearby the bus we ask you not to smoke.

Surely for smokers the cigarette is sometimes part of the relaxation and social interaction. For non-smokers, however, the confrontation with smoking at camps, in public places etc. is often a real burden.

Unfortunately, smoke-free rooms in public places are a real rarity. We therefore ask you to create them with us.

We do not want to exclude any smokers, we want everyone to feel comfortable. Please let us know if you want us to take a break for smoking, for example.

Clear-headed and relaxed on the way

We ask you to be the master of your senses and not to drink alcohol or use other drugs when you are on your way with the Solibus to demonstrations, events etc. When we go into action, it is important to be clear-headed and sober anyway.

Better we wave away than they flagg us down.

Please leave outside any objects classified as dangerous and anything that could be construed as a weapon. Experience shows that during our trips to demonstrations, actions etc. police controls can happen. We know that the police sometimes have absurd definitions of "weapons". Suspicious looking objects can be used as a reason and excuse for more thorough searches, delaying or stopping the journey and for criminalisation. We simply want you to consider the issue.

... so that Solibus stays on the move

Solibus is financed in solidarity. We are therefore dependent on donations and contributions. We thank you for every contribution, whether small or large, whether by bank transfer to our donation account (www.soli-bus.org) or into our donation box at the front of the bus.

Thank you very much!

Your Solibus activists
